Objectives of the Seminar:

Vulnerability to HIV is influenced by male dominance, and HIV and AIDS are both propelled and entrenched by gender inequality. The different attributes, roles, and expectations for men and women in society profoundly affect their ability to protect themselves against HIV and seek or receive information, testing, or care. Studies from around the world show that HIV and violence against women are linked in complex ways, with violence being both a risk factor for HIV and a consequence of being identified as having HIV. The objective of the seminar is

- Educate people about prevention of AIDS, non-discrimination and care for people living with AIDS, that aims to reach as many people as possible.
- Raise awareness to make communities more supportive of people with AIDS.
- Develop community care projects for people living with AIDS and AIDS orphans.

About the College

Hazi A. K. Khan College is the lone representative institution of Higher Education at Hariharpara Block. The Block was endowed with a considerable number of Primary, Secondary and Higher Secondary Institutions. But no institution was there to cater further education for the young aspirant stakeholders; predominantly the girls. The idea was initially conceived by honourable Hazi Abdul Kader Khan who donated land to set up a college. Afterwards, some local robust persons took timely initiatives in framing required Society Registration and completed other formalities with the Government. The long-cherished dream came true in 2008, when Hazi A. K. Khan College started its journey at Hariharpara High School getting affiliation from University of Kalyani with Honours and General Courses in some traditional disciplines in Arts. Very soon the institution was shifted to the present location. At present twelve academic departments in Arts are there, out of which seven have Honours Courses.
