Khan College is the lone representative institution of Higher Education at Hariharpara Block. The Block was endowed with a considerable number of Primary, Secondary and Higher Secondary Institutions. But no institution was there to cater further education for the young aspirant stakeholders, predominantly the girls. The idea was initially conceived by honourable Hazi Abdul Kader Khan who donated land to set up a college. Afterwards, some local robust persons took timely initiatives in framing required Society Registration and completed other formalities with the Government. The long-cherished dream came true in 2008, when Hazi A. K. Khan College started its journey at Hariharpara High School getting affiliation from University of Kalyani with Honours and General Courses in some traditional disciplines in Arts. Very soon the institution was shifted to the present location. At present twelve academic departments in Arts are there, out of which seven have Honours Courses.</p> <p><b>ABOUT THE SEMINAR</b></p> <p>Gender discrimination is social constructed. The root causes of gender inequality are gender bias and social norms that restrict women's rights and opportunities, which, together with preference advantage between men and women, are the root drivers of gender gaps. Gender discrimination is when someone is treated inequality or disadvantageously based on their gender but not necessarily in a sexual nature. But gender equality is not only a fundamental human right, but a necessary foundation for a peaceful, prosperous and sustainable world. Gender equality is not only a fundamental human right, but a necessary foundation for a peaceful, prosperous and sustainable world. In our society, due to the reasons why India is lagging behind in development (lack of women empowerment, local development is possible only when equal rights are recognized among Indian men and women, gender equity is the main goal of our seminar).</p>
