About the Department:

History of the Department of Education dates back to 2008, since the inception of the college itself. The journey started with General Course and afterwards, Honours Course added extra glamour to it in 2014. Since beginning the Department is functioning as a premier Department of the college in terms of result in specific and adopting a holistic approach in general. Education being an interdisciplinary subject, is gaining popularity among the local aspirants. Lucrative Programme Outcomes is also responsible for sound enrollment. The Department is aiming to impart learning outcome based knowledge adopting modern instructional methods to the stakeholders with a view to inspire and nurture the young minds to bring out best educators as well as best citizen among them.

About the Seminar:

"We need technology in every classroom and in every student and teacher's hand, because it is the pen and paper of our time, and it is the lens through which we experience much of our world." - David Warlick. ICT or Information and Communications Technology broadly refer to tools and services that handle and communicate information. Some of the most common examples of ICT are mobile phones and televisions. ICT is widely used in our everyday life, and its need is ever-growing in the education sector. ICT opens a world of possibilities for the betterment of the education sector. Technology in education isn't something new, but not many have information about ICT in education industry. This is because ICT comes with several constraints, one of which is ensuring access to electronic devices for every kid. But with more institutes investing in ICT, the problem should soon be resolved. In this seminar the students will investigate pros and cons of ICT in Education.
