The focus of this institution rests primarily on nurturing excellence in the local young, who would be mentored to achieve success in their later professional and entrepreneurial ventures and lead a decent life.

ABOUT THE SEMINAR

Research ethics in social sciences is important not only when conducting research but also at the time of publishing it. It is one of the crucial pillars for maintaining scientific integrity and credibility. The responsibility to implement fair practices lies with researchers, Universities/Institutions, and publishers. "Research and Publication Ethics" has been made compulsory for all Ph. D students for pre-registration course work. This seminar on research and publication ethics in social sciences aims to provide the participants with a valuable opportunity to discuss and understand the ethical considerations involved in conducting research and disseminating findings.
